

# PART 5 Fees & Charges 2022/23

# Introduction Fees & Charges

The City of Parramatta Schedule of Fees and Charges 2022/23 applies to the revised local government area (LGA) of the City of Parramatta Council, amalgamated on 19 May 2016.

This schedule outlines fees and charges for the 2022/23 financial year. It also introduces changes to fees and charges in 2022/23, and Council's approach to determining these changes.

#### FEES AND CHARGES STATEMENT

Council may charge and/or recover fees for any service it provides. Fees and charges are distinct from the rates and annual levies applied to properties within the LGA. When setting fees and charges, Council considers the nature of the service and recognises any community service obligations and wider policy objectives, including its commitments to equity and social justice.

In accordance with Section 532 of the Local Government Act 1993 (NSW), a council must not make a charge until it has considered all submissions made on the Operational Plan. It is also the responsibility of Council to set the Pricing Policy for fees and charges and consider each fee and charge. Section 403(3) of the Local Government Act requires the following for each charge:

- amount of rate per unit (e.g. kilolitre, tonne) of the charge;
- differing amounts for the charge, if relevant;
- minimum amount or amounts of the charge, if relevant; and
- estimated yield of the charge.

The NSW Government sets the rates for specific statutory fees and charges.

#### GOODS AND SERVICES TAX

A goods and services tax (GST) of 10% is payable on some services provided by Council. In general, GST is not payable on fees and charges regulated under the Local Government Act, unless contestable. These include planning and development fees, zoning, development application fees and dog registration fees. Unless a specific exemption applies, GST is payable on nonregulated fees. This document identifies where GST is payable or not payable.

#### **PRICING POLICY**

The pricing for all nonregulated fees has been determined in accordance with Council's adopted Pricing Policy. This Pricing Policy provides transparency so that stakeholders can clearly understand how Council has determined the fees and charges applied to a service.

Council has identified eighteen categories of pricing. These categories are outlined in Table 1 on the following page.

Category	Code	Description	Basis
Public Good	А	The service provides a broad community benefit. Inconceivable or impractical to charge for service on a user basis.	Zero cost recovery
Practical Constraint	В	The service is a minor part of the overall operation of Council, or the potential for revenue collection is so minor that it is outweighed by the cost of collection.	Zero cost recovery
Shared Benefit	С	Benefits from providing this service accrue to both individuals and the community as a whole (Community Service Obligation).	Partial cost recovery
Stimulus	D	A stimulus to the demand for the service is required. In the short term, only part of the cost of the service is to be recovered.	Partial cost recovery
Evasion	E	Charging prices to recover full cost may result in widespread evasion.	Partial cost recovery
Equity	F	The service is targeted to low income users.	Partial cost recovery
Economic Social/ Community Welfare	G	The service promotes or encourages local economic or social activity.	Partial cost recovery
Private Good	н	The service benefits individual users, contributing to their income, welfare or profits, without any broader benefits to the community.	Full cost recovery
Monopoly	I	Council has a monopoly over provision of the service and there is no community service or equity obligation.	Full cost recovery
Development	J	The fee set will enable Council to develop and maintain a service.	Full cost recovery
Contribution	К	Charges are levied to compensate the community for an increase in the demand for a service or facilities because of a development proposal.	Full cost recovery
Regulatory: Non-Fixed	L	Fee charges cover the costs incurred by legislative requirements where no community service obligation exists.	Full cost recovery
Regulatory: Fixed	Μ	The fee is fixed by legislation.	Regulatory
Market	N	The service provided is in competition with that provided by another council or agency (private or public) and there is pressure to set a price that will attract adequate usage of the service.	Reference pricing
In-house	0	The service is provided predominantly for Council use, but sale to external markets may defray costs.	Reference pricing
Entrepreneurial	Р	The service is a profit-making activity and the price paid by users should recover an amount greater than the full cost of providing that service.	Rate of return pricing
Penalty	Q	The fees charged are greater than the cost of the service, to act as a dis-incentive.	Rate of return pricing
Utility	R	Fee charges for possession, occupation or enjoyment of Council land, public land and air space by gas, electricity, telecommunications and water utilities.	Rate of return pricing

# What are the Major Changes?

#### CHANGES TO COUNCIL'S SERVICE FEES

# KEY CHANGES 2022/23

PHIVE (5 Parramatta Square) Establishment of a new set of fees and charges for PHIVE, Council's new flagship CBD based community facility, due to open in July 2022. PHIVE fees and charges are benchmarked against the Wentworth Point Community Centre and Library's existing community hub fees and charges and adjusted for PHIVE's Parramatta CBD location.

#### Parramatta's new aquatic and leisure centre

A new aquatic and leisure centre is due to open in 2023, of which the proposed pricing policy for services is listed here. Full conditions, inclusions and exclusions associated with fees are still to be determined and will be made available at least 28 days in advance of sales opening. The centre offers access to several pools, sauna, spa, steam room, gym and program rooms.

#### Community Care

Prices across our Community Care services have proposed increases to meet the changing costs of meal preparation and balancing the components of grant funded service, participant contribution and Council contribution. Prices continue to be subsidised based on participant's concession income to maintain them within a fair range of the food services industry.

#### **Riverside Theatres**

The fee period has been modified from Monday to Friday, to Sunday to Thursday, with separate fees on Friday and Saturday, to account for days with higher demand.

#### **Domestic waste**

Domestic waste charges will increase by 5%, to \$476.70 for a standard 140-litre bin service in line with expected cost increases to waste services over the coming 12 months.

#### **Development Application Fees**

To align Council development application fees with those prescribed in the Environmental Planning and Assessment Regulation, Fee Units have replaced fees. For the purposes of this Schedule, a fee unit is \$100.

#### **Regulatory Services**

Regulatory Service charges will increase by 5% to account for the CPI and other expected cost increases to services; the food related increase is set by the Food Authority. New animal registration fees set by Office of Local Government has been included based on the Animal Companions Act 1999.
